Sri Shakthi Institute of Engineering and Technology is one of the finest engineering institutions in Coimbatore, known for its commitment to academic excellence and overall student development. The college provides a modern and inspiring infrastructure, well-equipped laboratories, spacious classrooms, and a resourceful library. The faculty members are highly experienced, supportive, and dedicated to helping students achieve both academic and professional success. The institution focuses not only on theoretical knowledge but also on practical learning, innovation, and skill development, preparing students to face real-world challenges confidently. The placement training and career guidance offered by the college are highly effective, helping many students secure opportunities in reputed companies every year. Apa

Sri Shakthi Institute of Engineering and Technology is one of the finest engineering institutions in Coimbatore, known for its commitment. The college provides a modern and inspiring learning environment with excellent infrastructure, spacious classrooms, and a resourceful library. The faculty members are highly experienced, supportive, and dedicated to helping students achieve both academic and professional success. The institution focuses not only on theoretical knowledge but also on practical learning, innovation, and skill development, preparing students to face real-world challenges confidently. The placement training and career guidance offered by the college are highly effective, helping many students secure opportunities in reputed companies every year. In academics, the college encourages participation in technical events, workshops, seminars, sports, and cultural activities, ensuring the holistic development of students. The campus atmosphere is disciplined, motivating, and student-friendly. With its strong industry connections, quality education, and emphasis on leadership and creativity, Sri Shakthi Institute of Engineering and Technology continues to shape talented engineers and responsible professionals.

COIMBATORE'S BEST ENGINEERING COLLEGE
sridevlg12@cloudshell:~/sample$ echo "Sri Shakthi Institute of Engineering and Technology is one of the finest engineering institutions in Coimbatore, known for its commitment to academic excellence and overall student development. The college provides a modern and inspiring learning environment with excellent infrastructure, well-equipped laboratories, spacious classrooms, and a resourceful library. The faculty members are highly experienced, supportive, and dedicated to helping students achieve both academic and professional success. The institution focuses not only on theoretical knowledge but also on practical learning, innovation, and skill development, preparing students to face real-world challenges confidently. The placement training and career guidance offered by the college are highly effective, helping many students secure opportunities in reputed companies every year. Apart from academics, the college encourages participation in technical events, workshops, seminars, sports, and cultural activities, ensuring the holistic development of students. The campus atmosphere is disciplined, motivating, and student-friendly, making learning enjoyable and productive. With its strong industry connections, quality education, and emphasis on leadership and creativity, Sri Shakthi Institute of Engineering and Technology continues to shape talented engineers and responsible professionals for the future." >> sample.txt

The institution focuses not only on theoretical knowledge but also on practical learning, innovation, and skill development, preparing students to face real-world challenges confidently. The placement training and career guidance offered by the college are highly effective, helping many students secure opportunities in reputed companies every year. Apart from academics, the college encourages participation in technical events, workshops, seminars, sports, and cultural activities, ensuring the holistic development of students. The campus atmosphere is disciplined, motivating, and student-friendly, making learning enjoyable and productive. With its strong industry connections, quality education, and emphasis on leadership and creativity, Sri Shakthi Institute of Engineering and Technology continues to shape talented engineers and responsible professionals for the future.

Welcome to SIET

COIMBATORE'S BEST ENGINEERING COLLEGE

Sri Shakthi Institute of Engineering and Technology is one of the finest engineering institutions in Coimbatore, known for its commitment to academic excellence and overall student development. The college provides a modern and inspiring learning environment with excellent infrastructure, well-equipped laboratories, spacious classrooms, and a resourceful library. The faculty members are highly experienced, supportive, and dedicated to helping students achieve both academic and professional success. The institution focuses not only on theoretical knowledge but also on practical learning, innovation, and skill development, preparing students to face real-world challenges confidently. The placement training and career guidance offered by the college are highly effective, helping many students secure opportunities in reputed companies every year. Apart from academics, the college encourages participation in technical events, workshops, seminars, sports, and cultural activities, ensuring the holistic development of students. The campus atmosphere is disciplined, motivating, and student-friendly, making learning enjoyable and productive. With its strong industry connections, quality education, and emphasis on leadership and creativity

```
sridevlg12@cloudshell:~/sample$
```

```
sridevign12@cloudshell:~/sample$ awk
Usage: mawk [Options] [Program] [file ...]
```

Program:

The -f option value is the name of a file containing program text.
If no -f option is given, a "--" ends option processing; the following parameters are the program text.

Options:

-f program-file Program text is read from file instead of from the command-line. Multiple -f options are accepted.
-F value sets the field separator, FS, to value.
-v var=value assigns value to program variable var.
-- unambiguous end of options.

Implementation-specific options are prefixed with "-W". They can be abbreviated:

-W version show version information and exit.
-W compat pre-POSIX 2001.
-W dump show assembler-like listing of program and exit.
-W help show this message and exit.
-W interactive set unbuffered output, line-buffered input.
-W exec file use file as program as well as last option.
-W posix stricter POSIX checking.
-W random=number set initial random seed.
-W sprintf=number adjust size of sprintf buffer.
-W usage show this message and exit.

```
sridevign12@cloudshell:~/sample$ sed
```

Usage: sed [OPTION]... {script-only-if-no-other-script} [input-file]...

-n, --quiet, --silent
suppress automatic printing of pattern space
--debug
annotate program execution
-e script, --expression=script
add the script to the commands to be executed
-f script-file, --file=script-file
add the contents of script-file to the commands to be executed
--follow-symlinks
follow symlinks when processing in place
-i[SUFFIX], --in-place[=SUFFIX]
edit files in place (makes backup if SUFFIX supplied)
-l N, --line-length=N
specify the desired line-wrap length for the 'l' command
--posix
disable all GNU extensions.
-E, -r, --regexp-extended
use extended regular expressions in the script
(for portability use POSIX -E).
-s, --separate
consider files as separate rather than as a single,
continuous long stream.
--sandbox
operate in sandbox mode (disable e/r/w commands).
-u, --unbuffered
load minimal amounts of data from the input files and flush
the output buffers more often
-z, --null-data
separate lines by NUL characters
--help display this help and exit
--version output version information and exit

If no -e, --expression, -f, or --file option is given, then the first non-option argument is taken as the sed script to interpret. All remaining arguments are names of input files; if no input files are specified, then the standard input is read.
